

**Benefits Plus® is an easy and effective way to gain employee appreciation for all the fringe benefits associated with working for the employer.**

---

**Instant Benefits Network** is excited to present **Benefits Plus®**, an online Total Compensation Statement Wizard which automatically calculates all additional benefits and provides the employee with a printable statement detailing the total cost associated with their employment. This is a great way to show employees the true cost of all the benefits provided by an employer. Employers pay out quite a bit beyond just the salary for an individual employee, such as group insurance, taxes and other fringe benefits. These can add up to a significant expenditure that few employees fully realize.

**Advantages & Features:**

- ▶ Offer employees access to total compensation statements on any Client Website, or enable your plan administrators to offer a printable version online to their own clients.
- ▶ The easy to use Total Comp Wizard calculates a non-excessive amount of employee information by selecting coverage and eligibility from menus which produces an individual comprehensive fringe benefit compensation statement.
- ▶ Allow employees to calculate their own statements, or the plan administrator can choose to walk employees and new hires through the Wizard on a one on one basis.
- ▶ Give employers the opportunity to conduct employee meetings and use this tool to highlight the specific fringe benefits provided by the company.

**Complimentary Products & Services:**

- ▶ Client Website Builder – our online template system in the IBN Control Panel allows you to build custom benefit websites for clients to view benefit info and access other important resources.
- ▶ EQ Platform – get the Client Website Builder, plus selected additional modules, our online form populator, and more in one package, one price.

**IBN** is the leading developer of web-based products that are designed to meet the technology needs of the employee benefits broker. By customizing our products to your look and style, they effectively enhance your company's value in the eyes of your clients.
