

Express Applications

BenefitMall is pleased to partner with PlanSource to offer Express Applications, an online tool that streamlines the underwriting and enrollment process for you and your employer groups.

Small employer groups are often health underwritten which requires employees to complete long, detailed applications. With Express Applications, employees fill out their own and any dependant health information one time via a secure website. This online tool is an incredible time-saver for employees.

Initial employee information can be easily entered into Express Applications by simply uploading an Excel spreadsheet. New hires and terminations can be entered and deleted as needed keeping the information up to date. The system can also be used specifically for new hires as a means to complete the chosen carrier's enrollment form.

Since Express Applications requires employees to complete all information before continuing through the process, carriers receive their forms back with no missing and completely legible data. The result is an enrollment process that will go much smoother and your group will experience fewer service problems due to incorrect information.

Express Applications has a quick and easy process to add a signature, so all applications can be e-signed with a signature and date all by using your mouse.

For additional information on Express Applications, contact your BenefitMall Sales Team.

Advantages of using Express Applications are:

- ▶ Each employee fills out only one health questionnaire for themselves and their family members
- ▶ Brokers can access and print applications for employees
- ▶ Website system is 100% HIPAA compliant
- ▶ Each application document is complete and legible

The image shows a screenshot of the BenefitMall 'Manage Forms' web interface. On the left, there's a sidebar with the BenefitMall logo and navigation links. The main area displays an 'Employee Enrollment Form' for 'UnitedHealthcare Insurance Company'. The form includes fields for employee information (Last Name, First Name, Address, Date of Birth, etc.), employer information (Group Name, Plan Name, etc.), and a section for 'To Be Completed by Employer' with checkboxes for various options like 'New Hire', 'Status Change', etc. The form is partially filled out with sample data.
