

With Instant Apps® you can insert employee information into a variety of forms and applications with the touch of a button.

Instant Benefits Network is excited to present *Instant Apps®*, an online tool which will automatically populate a variety of selected forms with employee information. Now brokers can present multiple forms or applications to their clients with material readily prepared with common employee information. Brokers can select forms from our system's continuously expanding online library, request the addition of other forms – or even compile a custom library for any group! With Instant Apps, a broker can choose to designate access to the system for a group, enabling the employer to organize and print forms for their employees from dental applications to federal W4 forms. Instant Apps streamlines the forms process, saving time and preserving organization.

Advantages & Features:

- ▶ Census Upload & Export feature - this feature allows you to create a census spreadsheet from your system to add all employee information, as well as export the data for any further use.
- ▶ Select multiple forms or applications and employee information is inserted into each selection simultaneously, ready for print.
- ▶ Brokers can access & print applications for employees, or assign specific forms to their groups, allowing the plan administrator to access to print desired materials.
- ▶ Multiple built-in security features to protect employee information.
- ▶ 100% Compatible with our Instant Underwriter system.

Complimentary Products & Services:

- ▶ Instant Underwriter – groups complete and print multiple health applications using a single online process. Applications are legible and complete enabling faster, more accurate quotes while also cutting down renewal time.
- ▶ Instant Enroll Suite – Instant Apps and Instant Underwriter all-in-one package. Give employees access to the online application *and* plan administrators an online manager to maintain employee records, print forms from their own custom library, and more.
- ▶ Client Website Builder – our online template system allows you to build custom benefit websites for clients to view benefit info and access other important resources.

IBN is the leading developer of web-based products that are designed to meet the technology needs of the employee benefits broker. By customizing our products to your look and style, they effectively enhance your company's value in the eyes of your clients.
